I am 5' 5" male, I have brown eyes and brown hair. I am white Hungarian. Because I am not an academic person, I started work early and move to England shortly after that. I am a shy person at first, it takes time to open up with new people, and in certain situations. I grew up in the country side of Hungary, the oldest of three boys. My childhood was great. I have been brought up to always be polite and respectful, I believe that I am a good person. My parents did the best they could have done bringing up me, and my brothers. At school my favorite subject was history, and I really didn't like Math. I was a quite child, enjoying my own company as much as others. I consider myself an introvert.

I love travelling and exploring new places, also love reading (crime, fantasy, Sci-Fi and true stories) are my favorite. In my free time I like to go to the gym regular, watch movies, or hang out friends. I do not have many friends, and I find it hard sometimes to step out of my comfort zone, I don't have interest in sports

I was raised in a Christian family, although I am not religious at all. I believe in God but I do not practice any religion. At the time of my donation I [REDACTED] working in hospitality as a Barista, I love coffee and pizza as a matter of fact.

I am writing this letter almost 19 years ago! At the time of writing this letter I have no children on my own. It's a very strange but amazing feeling to know that I could help your mum and dad achieve what they wanted the most, you. I suppose I should tell you why I made a decision to donate my sperm to complete strangers. I think about the joy your parents will be feeling now, knowing they are being given the chance of a child, and will feel when you arrive in the world, it seems like a small thing to do for a such a massive reward.

I wish you all the best in your life, and if you, your mum or dad ever need anything from me I will, be happy to help in any way I can. That also goes for if any of you ever want to contact me.
