Donor Pen Sketch

Donor 1808

To the amazing person that will read it at some point.

When I decided to donate to other people to have a family is because I understand how important a family is to everyone, no this more in our life will be more important that a family.

I've learned that family are the one that will save or give their life for us and this describe exactly what is a family. I'm sure that love will be shown and proved to you from the lucky person that had the opportunity to have you as part of theirs family.

Love is the key, and they loved you soo much that they decided to have you in a way that they could not have on their own.

As a child I was the sweetest kid around, was lucky to be raised by the most kind mom in the world, always active and proactive towards my family, I was always good in physical activities, good to solve puzzles and very very active, always respect my parents no matter what they were saying to me.

I was always running for adventures, always brave and good with thins related to physical, not really good at school but always paying attention on the teachers to get enough grade.

I have dark brown hair, very expressive eyebrows, jaw, and physique, always healthy.
