Donor Pen Sketch

Donor 1817

G'dayyyy and I would like to start with my greatest and warmest wish to the recipient family and the children and hope you all enjoy the incoming family life and here is a not short summary of my earth adventure so far:

I describe my childhood as PERFECT which is the reason why I decided to make this donation [REDACTED]. I really enjoyed every second stay with my family, and I wish to share this happiness with more people. I was born on the [REDACTED] China [REDACTED]. I passed my happiness childhood at my hometown with my parents and grandparents until I went to Canada for the high school by myself which is the start of my self-adventure. I then decided to pursue my undergrad study in Australia for the better winter temperature [REDACTED].

I studied civil engineering the same as my father and my grandfather. This leads to a quite serious family debate which my mom wanted me to become a dentist as she graduated from medical school. I was working as a part-time Casino croupier during my first year of the uni caused I wanted to experience something different. By the way, I still hold the record as the [REDACTED] employee of that Casino since I got the offer on the second day of my [REDACTED] birthday. I started my engineering career at [REDACTED] Australia for two years until the Covid and decided to move my adventure [REDACTED] for the PhD study. And that's why you will see my profile in the UK.

I am currently in the Men's first team of my college rowing club; I hold a chief certificate [REDACTED] but I personally prefer Southern Italian food; I hold a skydive license [REDACTED] that can make me do the skydiving along; I play guitar since I was 10; I completed my first marathon in my life with 4:20:27. I describe my body condition as athlete with more than 5 gym workouts per week since starting of the uni. My MBTI is ENFP-T that hasn't been changed at all.

To the children:

☒ The most important thing is to enjoy life. We all hold certain responsibility from society, the community and the family, but before all of these, the most important thing is to be happy, this is way more important than all of others. I know this may sounds sophisticated but personally, I wish you to be happy forever no matter what you do.

☒ Life is also really short, do not worry if you don't make the correct decision in your life, it is part of life. Embracing everything you are facing, whatever they are good or bad. The adventure without the troubles is super boring.

☒ LOVE U~•
