About Me

I'm very friendly, I value friendship and would do anything for my best buddies i.e. (brothers).

My achievements include winning tons of trophies for my school and high school football team, captained my engineering team for 1 year in which we won 2 out of 6 tournaments.

My personality traits include adaptable, mindful and emphatic. I have seen my parents doing endless sacrifices for me and my younger sibling which is why I am very grateful for everything that I have at present.

I practice Hinduism and also believe that there's no bigger religion than humanity.

I have worked as a junior software engineer [REDACTED] I was good at Science and Mathematics in school and struggled in art which surprised my mother as she is very good at sketching and colouring. I love cooking food and gardening in my free-time.
